### Age Care Foundation Celebrates a Decade of Caring for the Elderly and the Seriously ill.

As Sneha Sandhya Age Care Foundation marks a decade of dedicated service, the organization reflects on its profound journey of caring for those navigating the most difficult and vulnerable stages of life – the elderly and the seriously ill.

#### From Humble Beginnings to Expanding Services

The Foundation's roots lie in humble beginnings. In 2012, it started with a single outpatient clinic for the elderly and occasional monthly visits to old age homes. Today, Age Care Foundation has significantly expanded its Geriatric care services, conducting monthly clinics in eleven different city locations, old age homes and two interior places in Chodavaram and Paderu.

#### Palliative Care: A Pivotal Commitment

Recognizing the crucial need for compassionate and comprehensive care, Age Care Foundation has become a pioneer in providing Palliative care in the region. This vital service is offered through institutional care at Gayatri Vidya Parishad Medical College Hospital in Madhurawada, Visakhapatnam, and through home care visits by a dedicated mobile medical team.

#### A Groundbreaking Initiative

Marking a significant milestone in its journey, 2022 saw the initiation of construction for the integrated Geriatric and Palliative Care Center in Gambheeram, Visakhapatnam. This pioneering initiative, generously facilitated by the Free Polio Surgical and Research Foundation, broke ground on August 7, 2022, and construction is currently progressing well.

## A Center for Hope and Healing

The integrated Centre for Geriatric & Palliative Care will be a beacon of hope and healing for the community. This first-of-its-kind facility in Andhra Pradesh will offer a comprehensive range of services, including Transitional Care, Rehabilitative Care, Long Term Care, Dementia Care, Hospice Care, and End of Life Care.

## Gratitude and a Call to Action

The dedication and commitment of Age Care Foundation's trustees, volunteers, and staff, along with the generous support of individual and institutional donors, have made it possible to provide vital care to countless individuals.

The Foundation's ambitious plans for expansion require continued support. To become an ANNUAL SUSTAINING MEMBER, please consider making a contribution of Rs.10,000/- or more in a calendar year. Your donation will ensure the continuity and sustain the growth of the Foundation's services, enabling it to reach a greater number of people in need of geriatric and palliative health care.

Together, we can make a profound difference in the lives of those navigating life's most challenging moments.

Yearly Donation ☐ Rs.10,000/- ☐ Rs. \_\_\_\_\_/-

☐ I give my consent to receive a gentle reminder, in case I opt to become an annual sustaining member.
